AB The culture media contain free methionine 0.1-1 weight%. They also contain peptones, yeast extract, adsorbents, lactalbumin hydrolyzates, etc. They are also useful for screening sporangium-producing <i>B. popilliae</i> . The spore- and parasporal body-containing sporangium is useful for manufacturing insecticides. Manufacture of sporangium with <i>B. popilliae</i> semadara, and control of scarab beetle with the sporangium were shown.
